No Email Storm For Confluence Crack + [32|64bit]

No Email Storm for Confluence comes with a very clean and easy to use interface, the plugin is divided into four tabs: 1) Page Monitoring 2) Post Monitoring 3) Markdown Mailing List 4) Miscellaneous The Page Monitoring tab helps you monitor all the pages in the system and notify you when something happens, you can also enable the automatic check functionality. In the Post Monitoring tab, the plugin is able to notify you each time a new post is created or updated, you also have access to the post options, so you can choose all the post options including attachments, categories, menu options, messages, from, and comments. The Markdown Mailing List tab helps you keep up-to-date with posts on the mailing list. So if you subscribe to a Confluence mailing list, the plugin will automatically check it and notify you if something new arrives. The Miscellaneous tab helps you monitor many other things like the Confluence user sessions, and groups. Flexibility and flexibility of the plugin is one of its key features, it is possible to configure whatever you need for your needs. For example, for a Confluence Wiki instance you can activate the automatic monitoring of page changes, posts, all the pages of the wiki, user sessions, groups, etc. And for a Confluence Blog you can configure the automatic monitoring of post creation and updates, comments, revisions, etc. Features: Site and Page Monitoring Post and Comment Monitoring Markdown Mailing List User Session Monitoring Groups Monitoring Miscellaneous Features Configure easily what you need for the system Show real-time statistics Perform checks in intervals Automatic mail notifications You can also configure different mail template and mail to users' specifications, you can also choose whether to email the modification or the revision and other interesting features. Support for multiple sites The plugin allows you to monitor different Confluence sites at the same time. This works on a one to one basis, for example you can configure No Email Storm for Confluence to monitor one site's pages and another site's blogs. Supports latest Confluence update No Email Storm for Confluence will notify you when there is a new update in the plugin's repository. Change Log v1.4.7 – 17 June 2018 Bug fixes. v1.4.5 – 06 October 2017 Bug fixes. v1.4.1 – 30 August 2017 Bug fixes. v 09e8f5149f

No Email Storm For Confluence With Serial Key For PC
