Over 20 years ago, the Microsoft Excel team realized that the existing processes for turning their data into documents did not meet their needs. In order to deliver documents, the team needed a tool that was accessible to individual users as well as large groups. The tool they developed is called Microsoft Office Macro. It became an integral part of the Microsoft Office Suite and it is still used today. To turn the contents of your Excel file into a Word document, all you need is a tool that accepts the Excel File, makes a few simple choices and saves it as a Word file. Whether you are providing a Word version of your data, or you want to convert your Excel worksheet into a presentation, this tool is the solution. The tool can work on both 32 bit and 64 bit operating systems. Now comes the fun part, with your gorgeous girl... and her gorgeous pussy. Problems? She might mess up your words, and may be too specific to your lips. That is where ProHoney comes in. It is an app that will help you out with that, simply by buzzing you and telling you what to do. How To Guide: You first get started by downloading the app (iOS and Android), then open it and login. After logging in, you get to choose a girl from a certain category. The categories and features of the girls are: One-on-One, 2-On-2, Public. Downloading and launching. You now get to choose a girl. They have up to 10 girls. Once you choose a girl, you are then asked to choose the language you want. The more words you look into the girl's profile, the higher the probability you will find the girl you are looking for. Talking Next is the easier part, talking to the girl. Once you start to talk, the app will tell you what to do, and will give you a certain amount of time to try again. Having a good time. Once you hit the time given to you, the app will buzz you again, and you are asked to choose what you want to do next. Giving me a chance. The only thing that is different with this version is the duration. You have the same amount of time to talk to the girl. As for why these extra duration was put in, I honestly can't find an answer. Maybe the devs just changed a small thing that came up during the test? The options are: Say more, Say your first
