KORG has outdone itself this time with the introduction of the KORG KROME EX. With 16 tracks and a built-in, full-featured sequencer you can load any KORG music software instantly and start creating a great song right away. Pick up the Korg KROME EX, and use this amazing new virtual instrument to start making your own original music today! Ableton Push is a powerful and intuitive application for MIDI production, MIDI performance, music arranging, and music publishing. Ableton Push allows you to enter notes, trigger automations and loops, create setups, and use 3rd party plug-ins. Ableton Push puts the basics of composing music, arranging music, and performing music right into your hands. Ableton Push allows you to enter notes, trigger automations and loops, create setups and publish your sounds to sites like Soundcloud, Jamroom and many more. It can be used as a controller or you can play the sounds directly, turn them on or off, or send them to external devices, ranging from Samplers to mixers and even guitars. Users can load music from any USB or network storage, and can also use music files and oggs from their Mac, Windows or Linux computer. Ableton Push users can also load software/plugin files from USB and Mac/PC computers. When plugging in headphones or using the push as a MIDI controller the software updates with the sounds from the track and sends the notes from the Push to the software. Korg's Krome EX is a great virtual instrument for creating music. Plug in headphones or use the touch screen to create tracks quickly and easily.
